Dear Sir or Madam:

I am writing in reference to the \$63.71 Application of Open Range Communications Inc. We live in a residential area in northeast Alabama with a population of about 4,000 in the city limits of Hokes Bluff. The city is contracted by Charter Communications, however, Charter will not supply us services because our driveway is 1/10 of a mile long. Open Range Communications Inc. has been such a blessing to our family. We have been able to set up accounts for online billing and it would be disruptive now to have to cancel those accounts. Also, our three children have been able to complete school assignments and use the internet for other educational purposes. We will not be able to acquire any reasonable service without Open Range, it is the only internet access available at this address. Please consider this before Open Range Communications Inc. is discontinued.

Sincerely,

A handwritten signature in black ink, appearing to be 'Candace West', written in a cursive style.

Candace West
